BOROUGH'S OWN TEAM.

Fans to Have a Chance to See Real Baseball.

On the eve of the introduction of a league baseball team to Danielson fans there is an amount of interest being exhibited in the players and the possibilities of a revival of interest in the sport in this town that is giving the management ground to feel encouraged.

Danielson has not had a good ball team in years. The high school teams have been very good high school teams but they have not been, and were not expected to be, in a class with the teams that have been representing other towns in this section. Danielson has not been on the baseball map. The reasons for this are difficult to determine. One thing, however, is certain—Danielson has not developed any players, except those from the high school, during the past years, and now, when a chance to break into the league presents itself, a team from another town is coming to take up the task of satisfying the cravings of the fans who want to see a good ball game at home.

And the Norwich-Taftville aggregation is the one to fill the bill. No team in this league has anything on them in any department of the game. They play clean, fast ball and are deserving of the confidence and support of every person interested in the game.

They will open the season here on Saturday with North Grovesportale and it is up to the people of Danielson to get out and give them a rousing welcome to a town that has always been looked upon as being capable of supporting a good ball team. The team will make good if the people will do as much for them.

Work on the field on the Davis farm has been going on all the week. A heavy roller was put to work Thursday smoothing out the rough places on the diamond and when the umpire says "Play ball!" tomorrow afternoon everything will be in readiness for a rattling good game.

Speaking at Pentecostal Meeting. Rev. John J. Diaz, a native missionary from Brava, one of the Cape Verde islands, has been speaking at the meetings in the Pentecostal tent

Vermont. The company manufactures wooden handles for a variety of articles. Their inability to stay in this section is due to the difficulty of securing skilled mechanics who are willing to live in a small town. Out in Canton the company has secured a fine new factory and the prospects are that the output of the company will be greatly increased. The manufacture of hickory handles for rakes, hoes and other farm tools will be added to the present product of the plant when they get located in their Canton factory.

The present prospect is that the town of Killingly will not build any state road this year. Commissioner Macdonald has been so busy that he has not been able to get out to Danielson and look over the proposed work and the season is advancing so rapidly that the chance is slight for doing any road building until next spring.

Baby Show Planned. In August the annual baby show will be held at Wildwood park. There will be ten classes under which the babies will be judged and the winner in each class will receive a prize.

MEDICAL EXAMINERS Appointed for County Towns by Governor Bill.

Coroner Arthur G. Bill has named the following medical examiners for the various towns in Windham county, for a period of three years: Killingly, Dr. Rensel Robinson; Putnam, Dr. J. Kent Thompson; Dr. R. C. Paine; Woodstock, Dr. Joseph Spaulding; Chaplin, Eastford, Hampton, Dr. Charles M. Knight; Plainfield, Sterling, Canterbury, Dr. W. W. Adams; Brooklyn, Dr. A. H. NEW INDUSTRY. Worcester Manufacturer to Locate in Putnam.

At a meeting of the executive committee of the Putnam Business Men's association, held Wednesday afternoon, an agreement was closed with H. L. Hanson of Webster, whereby this city will get a new industry. Mr. Hanson manufactures nuts, bolts and other small hardware articles, the bulk of his output going to piano manufacturers. The industry will be located in the old Fisher shoe shop and it is expected that the machinery which is to be shipped at once, will be in place and running by August.

The firm now has a number of orders on their books and many more in prospect.

The representatives of the Business Men's association present when the deal was closed were President E. M. Wheaton and the members of the executive committee, G. A. Hammond, Isaac Champeau, George E. Shaw, Edward Mullen, E. L. Kelley.

Changes in Bradley Building. It is stated that an important change is to be made in the Bradley building on Front street. The prospective changes include the change of the Bradley theater entrance from Front to Livery street and the removal of the front part of the building into three stories, where there is now only one. Such an arrangement would insure the building's producing a greater revenue.

FELL FROM TROLLEY CAR AND FATALLY INJURED. Emil Jones, 23, of Mechanicville, Fractured Skull—Died at Hospital at 9.55.

Emil Jones of Mechanicville and one of the office force at the mill of the French River Textile company at that place, was fatally injured between Mechanicville and Putnam just after 6 o'clock Thursday evening. Jones was riding on the outside front seat of the southbound car due in Putnam at 6.35 and in some manner not yet positively determined fell from the car and received a fracture of the skull. He was put aboard the car unconscious and hurried to the office of Dr. J. J. Russell on Elm street, where an examination revealed the seriousness of his injury. He was then removed to the Day-Kimball hospital. He died at 9.55 without regaining consciousness.

The fracture extended from the base of the skull around to near the right eye. How he came to be injured is uncertain. The point where the accident occurred is quite a distance north of Intervale street. Motorman Ray Shippee and Conductor James Richmond were the car crew. The car was coming along the down grade and not making very much speed when Motorman Shippee saw a pole guy or support wire dangling over the inside rail. Jones was sitting on that side of the car. Motorman Shippee slowed down his car to avoid a tangle with the swinging wire and did not notice that anything had happened to Jones until the startled cries of the other passengers drew his attention to the fact.

The injured young man, whose age is about 23 years, was picked up bleeding and unconscious. Whether his balance or fell in attempting to dodge the wire could not be determined last night. No one seemed positive of just how the accident occurred.

In looking over the scene of the sad happening a granite block with a metal pin in the top, evidently a boundary mark, was found to be covered with blood, and the fracture in Jones' skull may have been caused by striking against it.

The trolley road people will probably make an investigation today in an effort to get all the facts possible in connection with the accident.
